Commissioner Boutwell in his report raises the question whether a wise economy would not limit the operation of the Tax Law to the States, on the the exemption would encourage emigration and the Department, including Assessors, Collectors, The revenue from these is estimated at sixteen millions. Several important alterations of the Tax Law are suggested, and a number of others will be recommended hereafter to the Secretary of the Treasury or to the Committee of Ways and Means.

Senstor Wilson reported to-day, from the Comguittee on Military Affairs, a bill "To provide for the greater comfort of sick and wounded soldiers, and to promote the efficiency of the Medical Depurtment of the army." It enables the rations of soldiers in the hospitals to be commuted at 30 cents. such commutation to be retained by the Commissary Department as a credit to the hespital, to be expended like the hospital fund. SENATOR WRIGHT'S SPEECH.

Senator Wright's superb reply to Powell of Kentacky brought down the galleries to-day. His appeal to the example of Hannibal taking the oath o undying and unrelenting hate to Rome was stirring beyond description. The very beart of the matter was reached by the patriotic orator when he declared that he too had children, and should take from them an oath never to relent until secession is crushed.

PLIGHT OF THE BURGLARS-OVER TWENTY THOUSAND DOLLARS WORTH OF THE PLUK. DER RECOVERED-INTERESTING CRASE OF A ROUNDSMAN AFTER THE GOODS—DISPLAY OF SILKS AT THE STATION-HOUSE.

Yesterday morning, about 4 o'clock, while officers Craig and Alexauder of the Fourth Precinct, were patrolling their post, they, in accordance with a recent order of Capt. Bryan, went on the roof of the bonded warehose of Marrill & Co., Nos. 286, 288 and 299 Cherry street, to examine it and see that all was right. When there, they observed a horse and wagon drawn up in front of a blacksmith's shop at the end of an adjoining alley, and when they came down from the roof they were met by the man who had charge of the wagon, who inquired at what time the black-smith's shop would be open. This led the officers to suspect that there was something wrong, and, determined to exemine the neighborhood, they went up the alley, and soon they heard the heavy footsteps of a number of men running down the alley immediately next to the bonded store. They also heard the horse and wagon start off, when, coming out of the alley, they gave the alarm with their clubs, and Roundeman Webb, who happened to be near at the moment save the wagon chase. Before long, however the driver seeles that he must be causht, if he insisted upon atleking to the wagon, cut the traces, and field with the horse. The freet roundsman overhauled the wagon in Medison, near Market street, and had is taken to the Fourth Procinct Station-House, where its rich freight of silks, at least about \$20,000 worth, was dis charged and there rebonded, under the eyes of the Captain

and sergoents.

Meautime, Capt. Bryan and Sergts. Delany and Rode pro ceeded to the place where the robbery was supposed to ha been committed, to search the premises. The alley next the bonded store of Merrill & Co. brought them to a touchen building in the rear of the store, on the second story of which they discovered a room which gave evidences of the hasty paper, under one of the bottles, was the declaration, "We'll drink the health of Old Jeff." There was a bed and bedstead, several chairs, and other scanty furniture. On the bed-posts were found hanging two sharply whented short swords of Japanese manufacture.

Upon further investigation they found a large hole in the

wall, which led the way through to another bole in the rear wall of the bonded store. In this apartment had the burglars has Mrs. Beecher Stowe, in reply to an address from the women of England, some years ago, orging the Abolition of Slavery, writes that the great Anti-Slavery work, to which their English sisters exhorted them, is almost done.
